

## TRANSITION GUIDES FOR DUAL ENROLLMENT

Below you will find a few helpful links I have researched to guide families if they are looking to transfer their SJR credits to other in state and out of state schools. The term often used is the “college transfer guide”. Obviously outside of Florida, it becomes more difficult to align as the course numbers don’t align exactly, but in FLORIDA, it is AMAZING! Families can use this as a springboard to do their own research for their student’s path.

Additionally, students should be made aware that there is a “residency” (amount of time/credit hours earned specifically on site at their institution/does not include courses transferred) required to receive a degree from a specific school

For community colleges it is estimated to be 18 credit hours

For 4 year colleges it is estimated to be 60 credit hours.
